Introduce myself.

Hello, World!

The front page.

With every country we visit the map grows. We color the country and put in the route.

2. Where are we going?

Today we are leaving! Yeah! We are going to make a trip 'around the world in 60 days'! Where are we going? Today we are leaving for The Netherlands.

Hi! My name is Janneke! I will be your friend and guide when you travel through The Netherlands.

This is the house Janneke lives in with her parents and brother.

From Monday until Friday I go to school. School hours are from 8.30 - 3.15. We get a lunch break from 12.00 - 13.00.

It is a cold day today! So we put on some warm clothes when we cycle back home after school.

In every country, except Indonesia, we have a friend who helps us traveling around.

5. To the Maple trees.

Let's have breakfast. My mother made some delicious pancakes. The pancakes are served with syrup that comes from the Maple trees. 'Maple Syrup' it's called.

This is the forest. It is autumn now. The leaves get a different color like yellow, red or brown and they fall of the tree. In the winter the trees don't have any leaves but in spring the leaves will grow back.

During the weekends children help their parents collecting syrup from the Maple trees. They make a hole in the tree and then they attach a bucket to it. This way the syrup runs into the bucket. On the picture below you can see how the syrup runs out of the tree into the bucket, and also how it looks when it is ready to eat.

Per country we visit different kind of things. We mainly look at the most well know things, like the Maple trees in Canada.

8. Leaving Brazil.

I think it's a pity you are leaving so soon. Did you enjoy your trip through Brazil?

You are going with a jeep to Canada. You will cross many different countries.

Have a nice trip to Canada and I hope I will see you again! See you later my friend!!!!

Every country will be closed with the transportation to the next country or the end of the trip.

Why this project?
